

ePaper — Meeting Room Signage

No Cabling – Battery Powered – Easy Mounting

QuikMeeting.Tech | 7.4" | 9.7" | 12.2"

QM-RSS-eP7 | QM-RSS-eP9 | QM-RSS-eP12

Want to book a meeting room - sometimes it can be challenging. You want to find a room based on your criteria and not just any room. Will it have the necessary equipment, right seating capacity, easy to find for the visitors and much more.

QuikMeeting takes the stress out quickly and finds you the room that meets your criteria by giving you the tools to search, view and book seamlessly.

If it is a room that needs **further approval** from the admin, the admin dashboard always displays all the requests from various users for easy tracking and approvals. No missed emails for approval – less friction with the users.

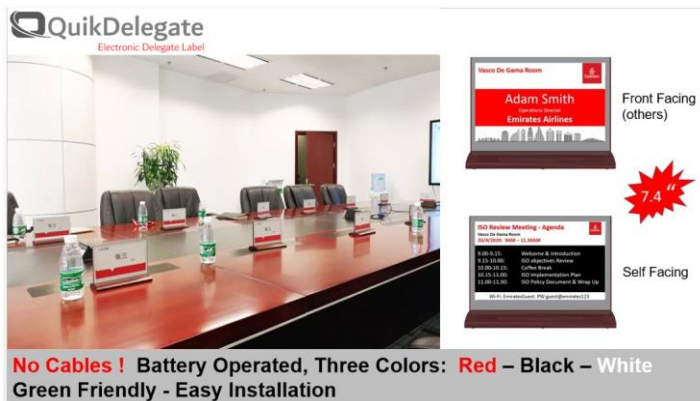

QuikMeeting: QM-RSS-eP7, QM-RSS-eP9 QM-RSS-eP12 Technical Specifications

Screen Size	7.4", 9.7", 12.2"
Communication	WiFi 2.4Ghz
Comm. Distance	2.4Ghz - Transmitting Power: 15dBm, Receiving Power: 85dBm
Working Voltage	3.0 V (Minimum 2.3 V)
Resolution	7.4": 800x480 9.7": 960x672 12.2": 960x768
Ink Color Pallet	Red-Black-White Colors
Viewing Angle	> 178°
Power Supply	3000 mAh - 3.7V
Battery Life	For 8-10 refresh per day, 6 months battery life (est) for each charge
Dimensions (mm)	176.6 x 124 x 7.6 227.6 x 169.1 x 7.6 263.6 x 218.08 x 7.6
Weight (gm)	265 385 455

QuikDelegate ePaper Electronic Name Label System provides the event organizers with futuristic and eco-friendly option now

No more printing paper name signs for every event. QuikDelegate will take the meeting attendees details and publish the relevant details onto these elegant and customizable ePaper electronic labels.

- **Battery Operated**
- **No Cabling**
- **Easy to move & store**
- **No wastage of repeated printing of paper based delegate signs**

Since these name sign labels are dual sided, the host can now publish room specific agenda, Wi-Fi password etc. on the side facing the delegate and the details of the delegate on the front side.
