

Students, Faculty & Admin Staff should be seeing relevant information at all vantage points seamlessly and in real time. This can be a challenge when you consider the dynamic nature of the information changing constantly and the logistics involved in getting this across all points of interaction in the campus.

- No more paper based classroom schedule, clumsy notice boards and human error.
- Broadcast Classroom Schedule, University videos, Public Safety Messages and even Greetings!
- Capture Student and Faculty attendance with RFID reader and cards
- This application can be integrated with the ERP and scheduling system

Go Paperless – Smart Campus

Time Table – Schedule events - Announcements

- ✓ Time Table – Auto Sync
- ✓ Schedule Events
- ✓ Publish: Images, Videos
- ✓ Publish: Safety Messages
- ✓ Publish: Announcements

QuikSchedule is an affordable, dynamic digital signage that brings live data and media onto the tablet outside each classroom and across all strategic locations in the university campus.
