NDS global announces PADS4 Workspace Solution distribution through Signaux

NDS (Net Display Systems B.V.) today announced the launch of PADS4 Workspace Management a one unified solution to manage every aspect of your work environment requirements. As part of the PADS4 Platform, that is recognized as the market leader in the Digital Signage, a Flexible, Cost Efficient and Integrated experience is guaranteed Today NDS signed up a new partnership agreement with SIGNAUX, a leading technology firm based out of Dubai, as a Distributor for the GCC market.

 "The effects of the COVID-19 pandemic are evident, and will be for some time. Health and safety are more than ever hot topics." says Bjørn Pieper, Chief Commercial Officer at NDS Global. "More people than ever started working from home, and it looks like this development is here to stay. Even when people are finally allowed to work from the office again, that routine and environment will change". With PADS4, you move away from separate applications and complex solutions to manage your workspace. Our software offers a real-time platform that excels in data- and situation-driven communication.

Many people are working from home, and the traditional offices are evolving. According to a survey carried out by Gartner, a leading research and advisory company, 47% of the respondents plan to allow employees to work remotely full time, whereas 43% would grant flex days. These numbers show that an office needs to offer more than just a workplace. It has to take the needs of users into account, and provide a comfortable and productive environment. "This is where the PADS4 and SIGNAUX partnership will add value. says Tanmay Athalye, General Manager at SIGNAUX. "PADS4 workspace management solution will not only help facility managers in promoting health and comfort at work, they improve the quality of facility services, optimize the use of available space, reduce energy and water consumption, create an activity-based workplace, and much more."

.
